● QY Bluetooth Adapter User Manual ●

Short Press: Press the button once to power on the adapter. The indicator light will illuminate for 1 second. After powering on, the adapter enters a waiting for pairing state.
Adapter Name Format: A_xxxx or Adapter-xxxx

Note:
1. If the adapter is not connected within 1 minute after powering on, it will automatically shut down.
2. If the adapter cannot be found during a search, long press the button for 5 seconds to reset the adapter's Bluetooth. Upon successful reset, the indicator light will illuminate solidly for 5 seconds.

Indicator Light Description:

Short Press (Power On): Lights for 1 second.
Long Press (Reset): Lights solidly for 5 seconds.

Pairing Method with QY Bluetooth Display
Method One: Wireless Pairing

1. On the QY Bluetooth Display, long press the Bluetooth button for 3 seconds. The second digit will display a "fast blinking underscore", indicating entry into Bluetooth pairing mode.

Long press the Bluetooth button for 3 seconds

The second digit of the digital tube will display a "fast blinking underscore"

2. Ensure the adapter you want to pair is powered on and is not currently bound or previously bound to another user.
   ① Power On: Short press the adapter button.
   ② Reset Bluetooth: Long press the adapter button to reset Bluetooth.

---

3. Wait for the Display to search for Bluetooth devices. The status indicators on the digital tubes are as follows:

QY BLUETOOTH DISPLAY SCREEN STATUS INDICATORS		
Digital Tube Position 1	**Digital Tube Position 2**	**Digital Tube Positions 3-6**
Blank: Indicates a Bluetooth Timer was found	**Fast Blinking:** Searching for devices	
A: Indicates a Transmitter was found	**Slow Blinking :** Pairing with this device	**Last 4 digits of the found device's MAC address**

4. If multiple devices nearby are in a pairable state, short press the Bluetooth button to cycle through and select the device you wish to pair with.

5. Confirm the target device by observing its MAC address last 4 digits. Long press the Bluetooth button for 3 seconds to start pairing with that device. During pairing: The second digit will display a "slow blinking underscore".

Observe the MAC address

Long press the Bluetooth button for 3 seconds

The second digit of the digital tube will display a "slow blinking underscore"

---

6. Wait for pairing with the device to complete (usually 5-10 seconds). Upon successful pairing, the screen will display 0.000.

*If pairing does not complete, ensure the adapter/second-generation timer is powered on.

Method Two: Insert Bluetooth Adapter Pairing

1. Insert the Bluetooth adapter into the Display.

2. Long press the Bluetooth button for 3 seconds to enter pairing mode.

*Ensure the adapter has batteries installed and is powered on first.

Long press the Bluetooth button for 3 seconds

3. Wait for the Display and adapter to pair automatically. Upon successful pairing, the screen will display 0.000.
